Subject: FW: Mock-up organizational structure for the Flint water response activities

Harry,

Enrique asked for the organizational structure of Region 5 to help with conversations with DTSC regarding their response to Exide. I basically mashed up information from a Flint SitRep document plus a PPT that someone gave me. I took out the names and basically left the general Region 5 structure.

No good deed goes unpunished.

Is there any reason this could not be "public"?

Yolanda

Thank you Yolanda!

Can I share this with DTSC? Is it from a public website.?

Subject: Mock-up organizational structure for the Flint water response activities

Enrique,

Per our conversation yesterday, attached is a mock-up of the response structure for EPA staff regarding the Flint water response activities. It's my understanding their staff are working 12 hour days/7 days a week. Note the new "EJ Navigator" team isn't included in the structure, yet. But, we expect 3-4 more people on the ground.

Also note that HHS is leading the Unified Command. Therefore, many more people from government agencies are on the ground, including CDC and ATSDR. This only represents EPA's activities.

When we have a publicly releasable community strategy and EJ Navigator strategy, I'll forward it along.
